AEG GAS HOB

The advanced technology of the StepPower Gas Hob allows you to easily set the hob's flame controls between levels 1 through 9, so you can deliver exact and consistent heat to pots and pans, without having to bend down to see the flame. Experience precision on the hob with StepPower controls. And produce consistently delicious dishes. The heat can be set at levels 1 to 9, with each ascending increment offering more power. Because exact settings mean outstanding results.

AEG

MIXED HOB

There's no need to choose between gas and induction heating anymore! This hob gives you the benefits of both, with gas as well as induction cooking zones.

Cook like a pro with AEG induction+gas hob. Having both an induction cooking zone and gas burners means you can choose the optimal heat source for the food you are cooking – and keep using all of your favorite pans.

The Bridge Function allows you to connect two separate cooking zones to create a large, unified cooking area. This means even heat distribution is created over the entire surface – ideal for bigger pots or plancha grill.

FISHER & PAYKEL APPLIANCES

ULTIMATE COOKING SOLUTIONS

Transform ingredients into cuisine, chores into beautiful experiences, and routines into rituals with combinations of luxury kitchen appliances designed to work seamlessly together.

The kitchen is the heart of the home, a place where people come together to eat, share and live life. Combine beautiful design and exceptional performance with appliances that encourage unique configurations tailored for your lifestyle.

BEAUTIFUL TO USE

COOKING EXPERIENCE

Perfect results in the kitchen seldom come from one type of heat. Just as the best cuisine is a combination of complementary ingredients, the best kitchens bring together the right appliances to give a chef absolute control.

YOUR LIFESTYLE

CONVENIENCE

Reheat, defrost or warm foods on busy days with Convection Speed, Microwave and Steam functions that quickly bring meals up to temperature while retaining moisture and goodness.

DESIGNED TO FIT

COOKING SOLUTIONS

Perfect results in the kitchen come from Mastery of Temperature. Explore combinations of combination steam, convection, induction and gas appliances that allow you to introduce the right heat source at the right moment, and hold at the exact temperature for perfect flavour and texture.

BEAUTIFUL TO USE

PRECISION COOKING

Bring your design vision to life with distinctive ovens that allow freedom of expression with exceptional performance and cooking precision. Choose from styles with signature design elements that make a bold statement, or a suite of tastefully understated appliances that match perfectly for a clean, minimalist aesthetic.

PERFECT RESULTS

NO BOUNDARIES

A large, seamless cooking surface allows you to arrange up to six pots or pans of any size and shape, anywhere within the cooking zone. Power can be individually adjusted using intuitive touch-screen controls and if a pot is moved, the display automatically updates.

PERFECT RESULTS

ENHANCED FEATURES

PowerBoost and gentle heat functions deliver either very high or very low heat, fast, for specialised cooking tasks such as searing meat and melting chocolate. Every piece of cookware has an independent zone timer to keep you on track and help ensure food doesn't overcook or burn.

FISHER & PAYKEL REFRIGERATION

COOL SMARTER

The key to excellent food care is the ability to maintain a stable and consistently cool temperature – a challenging proposition given the refrigerator is the most opened door in the household.

Decades of product innovation and testing are built in to every Fisher & Paykel refrigerator – microprocessors, temperature sensors, independently controlled fans and multiple air vents – to deliver excellent temperature and moisture control.

BEAUTIFUL TO USE

WATER DISPENSER

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water without taking up any storage space in your fridge.

RESPECT FOR THE PLANET

CLEVER ENERGY

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

BEAUTIFUL TO USE

ICE MAKER

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space, or during busy times you can boost ice production by up to 30%.

PERFECT RESULTS

HUMIDITY CONTROL

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

BUILT TO LAST

DESIGN QUALITY

Our refrigerators are designed and built using quality materials. We use real stainless steel on our refrigerators, hidden hinges and solid glass for shelving.

BUILT TO LAST

EASY CLEANING

No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

REFRIGERATION

CARE FOR ALL FOOD

The best refrigeration gives you the control to set the right temperature with the right humidity for your food, and the flexibility to care for it with products that keep ingredients fresher, longer. Configure a cooling solution to match every type of food, in the perfect design style to match your kitchen aesthetic.

CONTEMPORARY STYLE

Contemporary style refrigeration showcases the timeless aesthetic of stainless steel. As our hallmark style, choose your preferred configuration with confidence knowing they are designed to match.

INTEGRATED STYLE

Designed to match your cabinetry, Integrated style refrigerators offer the freedom to blend seamlessly with the kitchen, or contrast with stainless steel panels and handles.

HOOVER HOODS

Modern or classic design, wall or island, have you already chosen your Hoover hood? Maximum aspiration safely thanks to the filters, which maintain their effectiveness throughout the hood's life, and the different speed levels that regulate the power to purify the air. A combination of technology and design, Hoover hoods are equipped with a modern touch panel that is easy to program according to your needs, as well as energy-saving LED lights for a perfect view of your hob. No more fumes, vapours or food smells in the house; enjoy all the taste of your dishes in a fresh and healthy environment!

BERTAZZONI

Order Online:

Website: www.ldduk.co.uk

Discover the... **BERTAZZONI EXPERIENCE**

For six generations, Bertazzoni's philosophy and approach has been rooted in family. It's based on the understanding that cooking brings families together and recognizing that quality products help our customers achieve that aim.

01698 831 010

Sales@ldduk.co.uk

www.ldduk.co.uk

COLOUR CHOICES

Bertazzoni's Professional Series colours are inspired by the landscapes and natural tones of Emilia-Romagna. Developed using advanced techniques borrowed from Northern Italy's sports car industry, these finishes are applied by hand in multiple layers by skilled craftsmen. The result is a striking, high-gloss surface that is highly durable, resistant to stains, fading, acids, and temperature corrosion. The range is available in six colours; Nero, Bianco, Stainless, Rosso, Arancio & Giallo.

AIRFRY COOKING

Bertazzoni Freestanding Cookers feature the innovative Air Frying program, which ensures healthier cooking thanks to reduced oil usage, while delivering perfect results in terms of browning and crispiness.

This function is extremely versatile: in addition to classic fries, it allows you to prepare all types of meat, fish, vegetables, vegan dishes, and many other recipes, for a more balanced diet.

HIGH-EFFICIENCY GAS MAINTOP DESIGN

A single-piece stainless steel maintop with spill-prevention barriers is combined with sealed high-performance power burners and a reduced distance between the flame and cookware, delivering category-leading time-to-boil performance. The design also features increased spacing between burners to better

FLEXIBLE AND ADAPATABLE

Large "Best in Class" cavity sizes make it easy to cook for big groups of family or friends, while multi-level cooking remains efficient and fast with no flavour cross-over. A range of configurations is available, including single, double, or triple ovens.

POWER BURNER

A 5 kW dual-ring flame provides precise heat control and delivery, making it ideal for both searing and simmering. Multiple burner layouts are available across both cookers and hobs, while thermocouple safety devices are installed on every gas burner on the maintop and in the oven, allowing gas to flow only when a flame is present.

HERITAGE SERIES

The Heritage Series aesthetic was inspired by the original Bertazzoni stoves created by Napoleone Bertazzoni at the start of the 20th century. Taking styling cues from the past is one thing. But you can be certain that the series is engineered to the high standards Bertazzoni is renowned for, with state-of-the-art technology. The freestanding cookers are an authentic embodiment of Bertazzoni's heritage

LIEBHERR

Order Online:

Website: www.ldduk.co.uk

Refrigeration and freezing

Refrigeration and freezing equipment from Liebherr has had the mark of quality, reliability and longevity for decades. Thanks to innovative technologies and high quality materials, our equipment is particularly convenient and energy-efficient. This applies both to domestic and professional use in trade, craft, gastronomy, commerce and labor.

Sales@ldduk.co.uk

www.ldduk.co.uk

A CLEAR OVERVIEW LEIBHERR RANGES.

Which appliance is right for you? We have divided each of the x3 product ranges to highlight the benefits to each one, to make choosing your appliance much simpler!

The PLUS Series

Plus builds on the basic Pure Series and has many impressive additional details. Plus means a PLUS in comfort. The appliances not only provide first-class refrigerating and freezing, they are also just that little bit smarter.

BioFresh

Thanks to the proven BioFresh technology, food is stored at just above 0°C. With the perfect level of humidity, fruit and vegetables stay fresh even longer in the airtight Fruit & Vegetable safe. Meat, fish and dairy products also enjoy ideal conditions.

IceMaker

Spontaneous party? Not a problem. The IceMaker produces up to 130 ice cubes a day, providing ample ice for enjoying chilled drinks.

SoftSystem

With the SoftSystem, your fridge door closes softly and safely, and in a way which is pleasantly quiet and light. Bottles stored in the inside door remain securely in place - nothing rattles or wobbles.

The Prime Series

An unmistakable sign of high-quality design and materials. Things get much more classy in the Prime Series. It features unmistakable high-quality design and materials. The interiors of the appliances primarily use genuine materials, such as stainless steel. Special lighting features also ensure that appliances in this series have a captivating appearance.

LightTower

Enjoy an optimally illuminated interior: the LightTower shows off the food in its best light and is positioned so that all of your filled fridge is illuminated at all times.

Touch & Swipe Display.

Control of your Liebherr at your fingertips: thanks to the Touch & Swipe display, you can operate your refrigerator intuitively and with ease. Simply select functions such as SuperCool on the colour display by tapping and swiping.

SmartSteel rear Wall.

The rear wall in elegant SmartSteel gives your Liebherr a stylish look and feel. Your food will also love SmartSteel: as a stainless steel is food-safe and hygienic. What's more, SmartSteel also reduces the visibility of fingerprints.

The Peak Series

For those who want to have it all.

The Peak series is our top-of-the-line series. This combines the best with the best. There is no compromise. Innovative Liebherr technology meets exceptional high-end design and convenience in a class of their own. Appliances in this series are for those who want to have it all.

BioFresh with HydroBreeze

Do you want to cool fruit and vegetables like professionals? You'll be inspired by HydroBreeze. The cold mist combined with a temperature in the safe of around 0°C gives food that extra boost for longer shelf life. And it creates a genuine visual wow effect.

InfinitySpring.

A source of fresh, cool drinking water in your kitchen. InfinitySpring sounds like something from a fairytale. The water dispenser enables drip-free water dispensing and provides fresh, cold water. This enables you to save on purchasing bottles of water and to live more sustainably.

OpenStage Drawers.

Now there's a clear view of everything. The different heights of the drawers make it easy to store food of different sizes. And, thanks to the transparent GlassLine drawers, you have a clear view of everything from bottom to top.

Built-in wine cabinets

Getting the temperature just right plays an important role in wine enjoyment - and this is true in terms of both long-term storage temperature and serving temperature. Liebherr wine storage cabinets and multi-temperature wine cabinets provide perfect storage solutions; offering a climate in which wine can be stored under precisely controlled conditions, and be protected against harmful environmental influences. Several sizes and door solutions are available, so that Liebherr built-in wine cabinets can be easily integrated into existing kitchen set-ups.

Talis M54 Range

With its clean design, the Talis M54 Range has the right tap for every kitchen. It gives a nod to minimalism. Talis M54 with a U-shaped spout, has a familiar look and makes the best use of the existing space, including under a wall cupboard,

HANSGROHE KITCHEN TAPS

Looking for a sleek kitchen tap that makes your work at the sink easier? We offer a wide range of quality kitchen products that are far more than just taps. Opt for impressive functionality, beautiful design and an optimum workflow at the sink.

Spray Types

LaminarSpray

Crystal-clear spray type with no added air for the sink. This spray is a great help when going through the day-to-day kitchen routine. Efficient with very little splashback design and an optimum workflow at the sink.

PowderSpray

Gentle, microfne water jet causes little splash when rinsing items in the sink to ensure less cleaning after use. Its low consumption of 5 l/min also helps people to use water efficiently. The flat sprays cascade from beneath the faucet spout.

ShowerSpray

Resource-saving shower spray at the sink. Whether fruit or vegetables, fish or meat, the soft spray helps to gently yet efficiently clean food and other items.

FOOD WASTE DISPOSAL
ONLY BENEFITS.

Get rid of food waste easily and comfortably. From vegetable scraps to fruit peels or chicken bones from yesterday's dinner. Food disposers provide a safe and environmentally friendly alternative to transporting food waste to landfills.

Waste disposals offer you greater hygiene and sustainability as they reduce accumulated garbage and the use of plastic bags. In addition, their water and energy consumption is minimal and they are very quiet thanks to their high-torque induction motor and their new super safe grinding technology that does not use blades or fans for operation.

WASTE DISPOSAL

115890014

- Food Waste Disposal
- Stainless steel grinding system, continuous feed
- Corrosion protection
- Sound reduction technology

The RedLabel Wood Collection

The Klickfloor RedLabel Collection is an enhanced engineered vinyl floor. A rigid flooring solution with a strong core, yet with a soft feel and silent acoustics, making it the perfect floor for renovation projects. As a premium floor, it comes with integrated underlay - in the colour red - a signature of the RedLabel collection.

It's advanced engineering allows it to stand its ground in any room, and is designed to look beautiful in any environment. It also comes with 20% improved silent acoustics, heat absorption and a thicker wear-layer.

The Herringbone Collection

A Classic Design, reinvented.
A true classic that's been around for centuries. Its timeless feel and geometric design add a splash of grandeur and warmth to every space.

With Unizip®: made for smarter clicking & faster placing.
A Herringbone pattern often calls for two different types of planks to place it. Not anymore. With the new Unizip® clicksystem your Herringbone floor is shaped with just one plank that clicks both ways. It's faster. And easier.

Please note: All prices shown include the scheduled price increase effective from 20th April which has already been applied.

XtraFloor Accessories

Our range of cleaning products have been specially formulated for use with luxury vinyl floors and most vinyl, rubber and linoleum floors. KlickFloor maintenance products are carefully manufactured to produce the highest performance.

KlickFloor underlay, designed to be the perfect partner for Klickfloor flooring. Adding to the already long list of benefits of using Klickfloor, our underlay provides a fantastic foundation to your floor and is particularly suited for the floating installation under Klickfloor.

Underlays and maintenance products from KlickFloor help you to enhance and protect luxury vinyl floors, keeping them at their best for years to come.

WELCOME TO SYCAMORE BATHROOM LIGHTING

Our Bathroom range features a stunning collection of LED illuminated mirrors & mirror cabinets. A selection of our mirrors and cabinets are tunable white, enabling users to change the colour of the LED from warm white, natural white or to cool white to suit individual preference or decor.

All of our Bathroom LED Lighting including our mirrors and mirror cabinets featured in this brochure are covered by a 5 year warranty for your peace of mind.

EVoline® BackFlip

The EVoline® BackFlip is the safe electrification solution for representative kitchens, reception counters and presentation furniture. A light touch turns the insert of the built-in solution upwards and reveals two sockets and a USB Charger.

Easy and Flexible

We offer you a flexible and well thought-out solution with sockets that can be easily adapted to your requirements at any time.

Individual Surfaces

The BackFlip is available in various colours and can therefore be optimally integrated into its surroundings.

We charge!

The BackFlip is now available with the USB Charger 2.1 A as type C option.

Please note: All prices shown include the scheduled price increase effective from 1st July, which has already been applied.

EVOLine® Port

Just let the junction boxes, plugs and cables disappear into the recess. When the EVOLine® Port is closed, only the frame, the cover and the emerging cables can be seen.

PATENTED ROCKING COVER

2 in 1 Function

The patented rocking cover is on the one hand a handle and on the other hand a kink protection for the cables. The high-quality aluminium housing of the EVOLine® Port can be easily pulled out by tilting the lid. Gentle pressure causes the electrification module to disappear into the cavity that provides space for most commercially available plugs. The rocking cover leaves space for the cables

The EVOLine® Port was awarded the Red Dot Design Award for function and Design

Slender in both design and shape

metis® 15mm slimline solid surfaces reflect the growing popularity of contemporary and transitional kitchen designs.

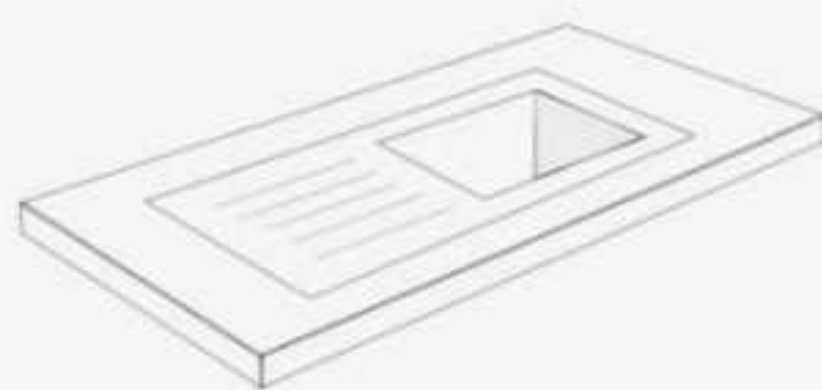

By incorporating ultra-thin surfaces, kitchen designers can achieve on-trend slimline styling to maximise their design statement

Square profile factory finished edges, ready for fitting

The square 1mm profile factory finished edges come as standard and gives metis® slimline solid surfaces a distinctively modern look and feel.

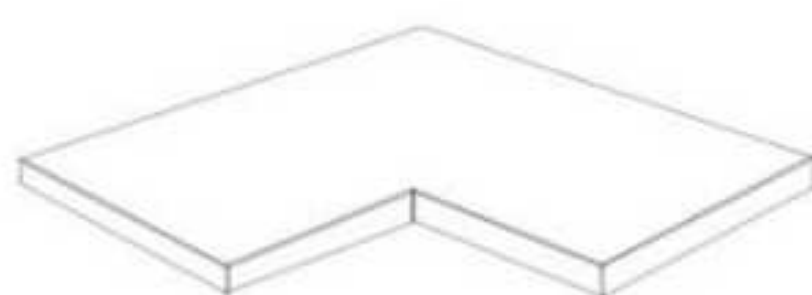

Pre-fabricated, ready to fit, quicker to fit

Ready to fit on-site, metis® slimline solid surfaces are delivered in standard sizes with all working surfaces and edges factory machined and finished, saving you both time and money on your installation.

In addition, sweeping curves can easily be cut and finished on-site.

Seamless joints for a continuous finish

There is no compromising with the metis® Jointing Kit that uses a tried and tested method so that seamless joints are both effortless and easy to achieve.

Smith's

Providing comfort for the
built environment

Smith's Environmental Products is a leading UK manufacturer and supplier of heating and cooling products for domestic and commercial applications. Our range of market leading products includes fan convectors, plinth heaters, fan coils, air curtains and fan-assisted radiators

Space Saver Plinth Heater...

A highly energy efficient fan convactor that fits neatly into the plinth of a kitchen unit. Space Saver eliminates the need for conventional radiators. And, as its name implies, this brings considerable space saving benefits - more room for extra storage units, more work surfaces, more space for kitchen appliances.

Space Saver is used predominantly for domestic applications where the ingenious plinthmounting feature makes it ideal for heating kitchens and utility rooms. Plinth mounting also makes Space Saver ideal for certain non-domestic applications such as reception areas, changing rooms, libraries, etc.
